Experience

Member   *Kerala, India*
amFOSS   *Nov 2023 – Feb 2025*

- Engaged member of amFOSS, The Free and Open Source Software (FOSS) Community located at Amrita Vishwa Vidyapeetham.
- Lead the Figma design work for Hacktoberfest ↗ organized by the club.
- Contributed to the Figma design of the ICPC Website ↗, partnering with faculty members and organizers.

Projects

MediMate ↗   *April 2024*

- This mental health app is designed to support users on their journey to well-being with daily check-ins, a personal journal, helpful reminders, and a friendly chatbot. It provides a safe space for users to express themselves, access mental health resources, and build healthy habits—all in a gentle, user-centered experience.
- Tools Used: Figma

Venty ↗   *April 2025*

- Designed and developed a full-stack mental health journaling platform that leverages AI to provide users with real-time sentiment analysis, emotional summaries, and wellness suggestions. Integrated Gemini API for natural language processing, enabling personalized mental health insights.
- Tools Used: React, Tailwind CSS, Node.js, Express.js, Gemini API (via LangChain), Vercel, Render, Git.
